Assignment Program

Assignment 1

You are given an array of dictionaries. Each dictionary in the array contains 2 keys “firstName” and “lastName”. Create an array of strings called fullNames that contains the values for “firstName” and “lastName” from the dictionary separated by a space.

```
var people: [[String:String]] = [  
    [  
        "firstName": "Anil",  
        "lastName": "Kapoor"  
    ],  
    [  
        "firstName": "Akshay",  
        "lastName": "Kumar"  
    ],  
    [  
        "firstName": "Sunil",  
        "lastName": "Shetty"  
    ],  
    [  
        "firstName": "Tushar",  
        "lastName": "Kapoor"  
    ],  
    [  
        "firstName": "Vinod",  
        "lastName": "Khanna"  
    ]  
]
```

Expected Output

```
[["firstName": "Anil", "lastName": "Kapoor"], ["firstName": "Akshay", "lastName": "Kumar"], ["firstName": "Sunil", "lastName": "Shetty"], ["firstName": "Tushar", "lastName": "Apoor"], ["firstName": "Vinod", "lastName": "Khanna"]]
```

Assignment 2

Create a generic class in swift which accepts two inputs from user and print them on screen.
